

i3's Ai-based Occupancy Alert System

How do you protect your customers and business from COVID-19? What is the new normal?
i3 is here to support you with our Ai-based solution.

i3's Ai-based Occupancy Alert System is designed to help better your business and strikes the right balance to:

- ✓ Measure and manage customer traffic control within your location to assist in social distancing requirements and compliance matters.
- ✓ Promote the health and safety of employees, customers, and communities.

WHAT'S IN IT FOR YOUR BUSINESS?

1 Monitor and measure your occupancy threshold in real time

- ✓ Know the number of people entering and exiting with precision.
- ✓ Save labor costs by staffing doors only when nearing capacity.

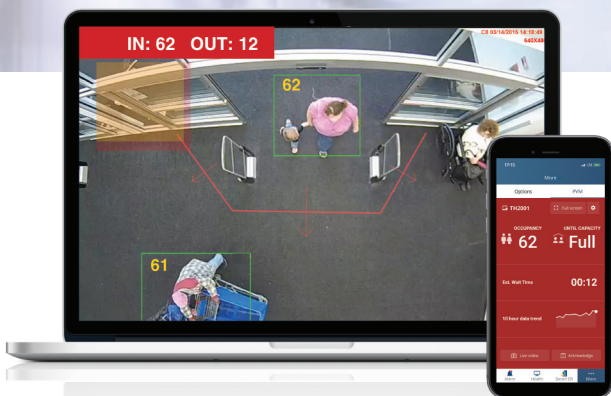

2 Track and report customer wait times

- ✓ Provide the estimated waiting time for customers outside the store.
- ✓ Understand peaks in traffic flow and have your team acknowledge the actions taken to manage occupancy.

3 Provide accurate and real time interactive notifications

- ✓ Receive immediate alerts on a public view monitor and i3 CMS mobile app.
- ✓ Ensure accountability by receiving live and historic user defined audit reports (including reports for multiple locations to manage larger groups and regions).
- ✓ Connect securely to our i3 Cloud solution and provide video confirmation of actions taken by associates.
