

SRX-Pro v7.0

A powerful digital video management software

Srx-Pro v.7 offers a new, simplified and user-friendly interface. The v7.0 is optimized to deliver highly accurate analytics when paired with i3's Ai Server. With this combination, Ai-driven human and object detection as well as i3's unique Queue Time analysis solution, providing its user with accurate business results.

Additionally, with the new Video Pilot Client, SRX-Pro v7.0's backup process has been further improved. The new backup feature is more customer-intuitive, and guides users through step-by-step to deliver a faster user experience.

Key features of SRX-Pro v7.0:

- ✓ User-friendly and updated server setup interface
- ✓ Improved Video Pilot Client is used for Live, Search and Backup functions
- ✓ HTTPS protocol supported for added network security
- ✓ Automatic IP device discovery on the network
- ✓ Easy two-step batch camera and encoder addition to the server
- ✓ Fully integrated with i3Ai Server that delivers Ai-driven video analytics
