

# Video Pilot Client

## i3'S HIGHLY VERSATILE REMOTE CLIENT SOFTWARE

Video Pilot Client (VPC) is notable for its fast connection, many flexible features and unique Graphic User Interface (GUI). VPC's clean lines and simple navigation through the interface leaves more screen space for live or playback video viewing.

### USER ADVANTAGES

- ✓ Simple to use and designed for touch screen devices. Screen divisions are changed in a single click for up to 64 camera views.
- ✓ Dual stream technology - providing both high-quality images when you need them while being easy on your bandwidth when speed is more important.
- ✓ Snap shots are available at anytime with any camera.
- ✓ The image can be magnified utilizing picture-in-picture box.

### NETWORK ADVANTAGES

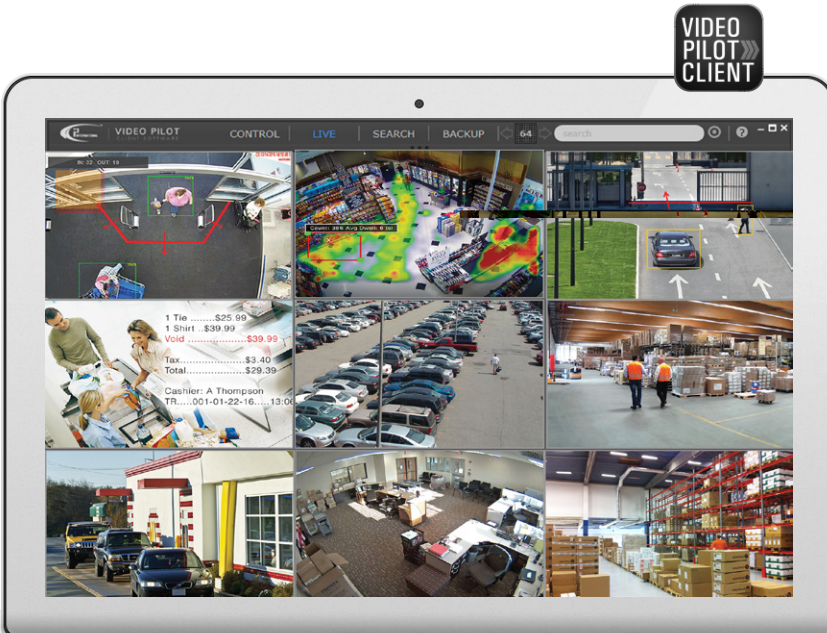

- ✓ Faster connection to remote sites utilizing multiple streams of video.
- ✓ Multiple users can connect to different sites and cameras on several computer screens.

### SEARCHING ADVANTAGES

- ✓ Quick same-day search with histogram.
- ✓ Play back image on 16x speed.
- ✓ Remain in quick search while also view other cameras live.
- ✓ Multiple search cameras can be displayed on screen division.
- ✓ Backup video with start and end time with a single click.

### TIME SAVING ADVANTAGES

- ✓ **Favorite feature:** Saving specific channels and servers in your favorites folder allows for quick and convenient access.
- ✓ **Mapping feature:** Laying out video channels on a digital map of the facility provides the means to launch videos or link cameras quickly.
- ✓ **Video analytic notification:** Live notification of human or vehicle activity within a defined area with Alert Center support (optional).
- ✓ **POS integration:** Text overlay from POS can be overlaid on video or side panel while reviewing the footage.

### Text overlay display

### Fast video backup

### Camera linking through custom facility map

VPC's many features have been designed to create a simple yet efficient user experience. Fast and convenient, Video Pilot Client could very well become your favorite business tool!
