For immediate release:

Re: End of Life for the following Input/Output board – ADIO1616

To all of our customers and partners;

This is an official End of Life (EOL) notice for the **AIO1616 input/output board** used in manufacturing of certain DVMS products.

Fast advancements in the technology cause the replacement parts to become obsolete and unavailable very quickly. Effective immediately, i³ International will no longer sell the above product or use it in DVR/NVR manufacturing, however i³ International will continue to support and service this product in accordance with the DVR/NVR warranty policy.

Official replacement model: **WDT22 USB input/output board**, which supports 2 sensors inputs, 2 control outputs and one connector for RS485 (PTZ controls).

When the customer requires more inputs/outputs, **UIO8 input/output device** may be used. UIO8 is designed to be used as an I/O Relay Control device for SRX-Pro Server or as a Portal Card Access Controller via TCP/IP. UIO8 can be used with PoE 802.3at or 24~36VAC power input. UIO8 device supports 4 sensors, 4 controls and one connector for RS485 (PTZ controls).

Please contact technical support at support@i3international.com or by phone: 1.877.877.7241 if you have any questions or issues.
