

**Release Announcement: Veo16p Embedded HVR.**

To all of our customers and partners;

i3 International is pleased to announce the release of the new Veo16p Embedded HVR.

The Veo16p is an affordable 16-channel entry-level digital surveillance video recorder running on an embedded Linux operating system.

Veo16p embedded HVR is compatible with legacy analog cameras as well as i3's line of HD-TVI cameras, Am42R and Am52RM. Veo16p also supports select i3 IP cameras: Ax47, Ax67, Ax45RM. Real-time video recording (30 fps) is supported at 1080P and 3MP.

Use of a monitor and mouse (included) provide local access to Veo16p menus. Managers can choose between a VGA and HDMI outputs, remote IE Web browser or Apple/Android app to view live video. H.264 video compression improves remote viewing performance of a single or multiple sites by supplying the bandwidth-efficient dual streaming.

Local users can back up video to a USB drive or a CD/DVD disk; remote users can back up video to their local PC or any removable storage media.

The unit comes with four SATA interfaces and supports up to 4 hard drives for the total of 24TB of storage. Veo16p supports up to 16 audio inputs, 1 audio output, 18 alarm inputs, 16 alarm outputs, and comes with 2 BNC spot output ports, 1 LAN, 1 WAN and 3 USB ports.

Please remember that as with all i3 video servers, the use of Western Digital Gold-rated hard drives is required for maintaining your original warranty. The Veo16p HVR is backed by i3's superior 3-year parts and labor warranty policy.

With any pricing questions, kindly contact our Customer Care department at 1.866.840.0004.

Please contact technical support if you have any questions or issues.
