**Release Announcement:**

**8MP Zoom Dome, Outdoor 4K Infrared Dome w/ Motorized Lens  
(i3 Model# Ax85)**

To all of our customers and partners;

i3 International is pleased to announce the release of the 8MP Outdoor IP Dome camera: Ax85.

i3's Annexus Ax85 megapixel IP camera features 8MP (4K) video resolution and a built-in 3.4~9 mm remotely-adjustable varifocal lens with P-iris control, which allows the camera users to zoom in and out for the perfect view.

This new dome camera is very versatile and offers many practical functions ideal for both indoor and outdoor application, such as Smart IR and True WDR. Smart IR technology achieves superior images in low-light conditions by automatic LED brightness adjustment depending on the object's distance from the camera. True Wide Dynamic Range (WDR) allows the cameras to adjust to varying outdoor lighting conditions and provides the best video quality despite the presence of high and low exposure areas in the camera's lens view.

This waterproof and vandal-resistant model is IP67- and IK10-compliant and is designed to withstand outdoor conditions, while also being suitable for the indoor installations. Corridor view is available for users that would like to view a hallway or a single store aisle.

For the installations requiring edge recording redundancy, Ax85 camera supports microSD card (sold separately) for easy event-based video and snapshot storage directly to the camera. For outstanding quality audio recording, combine with i3's Mo-1 line level microphone (sold separately).

Finally, Annexus 85 dome camera is designed with the installation simplicity and versatility in mind. This camera model can be surface-, pendant- or recess-mounted without the need for additional mounting brackets. These series can also be wall-, pole- and corner- mounted with the purchase of i3's compatible goose-neck bracket and the corner-mount assembly (where applicable). The zoom and focus settings can then be fine-tuned after the installation thanks to the remotely-adjustable varifocal lens.

The flexibility of Ax85 IP dome camera makes it suitable for a range of video surveillance applications, including government and industrial buildings, retail environments, airports, railway stations and schools.

Use [i3's Online Storage Calculator](#) to calculate the storage and bandwidth required for your installation.

Ax85 camera series is backed by i3 International's superior 5-year limited camera warranty.

**Brackets & Accessories:**

DB60 – goose-neck bracket wall-mount kit

DB60CPM – corner / pole mount kit (used in conjunction with DB60)

Mo-1 – outdoor IP66 omnidirectional microphone
