

Re: ATI FirePro 2460 replaced by Sapphire Gpro 6200.

To all of our customers and partners;

Please be advised that ATI FirePro 2460 video card is no longer available for purchase and will be replaced with Sapphire Gpro 6200 in i3's Production line.

ATI FirePro 2460 video card had been used by Video Pilot Client (VPC) and Video Pilot Matrix Client (VPMC) users that require a total of 6 video displays. Since ATI FirePro 2460 has been retired by the manufacturer, a new graphics card (Sapphire Gpro 6200) with similar specifications has been approved by i3 International Inc. as a replacement.

Note: Sapphire Gpro 6200 may not be combined with the on-board motherboard video outputs.

See main specification comparison for both cards:

	ATI FirePro 2460	Sapphire Gpro 6200
Image
