

May 27, 2019

To all of our customers and partners;

Re: m.2 SSD OS drive release

Starting June 17, 2019 i3 International will begin using m.2 SSD operating system drives on all U3-series NVRs. By the end of July 2019, both U2 and U3 series will be using m.2 SSD operating drives in place of the current 2.5" SSD OS drive.

m.2 SSD is a high-performance Solid State Drive designed to mount directly onto compatible motherboards. By continuing to use Solid State Drives as the NVR's Operating System drive, i3 International ensures fast boot/reboot times, stable operating system and substantially reduced instances of OS corruption and failures.

Current U2/U3 OS drive	Upcoming U2/U3 OS drive
2.5" SSD	m.2 SATA
