Re: Introducing Di721R/Do721R infrared dome camera series

**To all of our customers and partners;**

i<sup>3</sup> International is pleased to announce the release of the new infrared dome camera series: Di721R/Do721R. The Di721R and Do721R camera line will be available January 2013 and are a valuable addition to i<sup>3</sup>'s current 700TVL analog camera line.

Di721R and Do721R are the indoor and outdoor dome models (respectively) built with infrared hardware. Both cameras can display images with no illumination at an IR distance of 49 feet (15 meters). Both cameras come with Digital Wide Dynamic Range, Day/Night capabilities and vandal-resistant performance. In addition, Do721R camera model comes with IP67 rating for outdoor applications. Both cameras are backed by i<sup>3</sup> International's superior camera warranty – three year 2-for-1 return. In case of manufacturer's defects, the customer will receive a brand new, same model, camera along with the repaired original one.

Di721R and Do721R dome cameras are designed with easy installation in mind. Both models can be surface, recess, and pendant-mounted with minimum hardware assembly.

If you require additional details, please contact technical support or your Regional Sales Manager at [support@i3international.com](mailto:support@i3international.com) / [rsm@i3international.com](mailto:rsm@i3international.com) or by phone: 1.877.877.7241.

Thank you very much for your attention and cooperation.
