Re: Annexxus 49D, 52 D/V/R Default Login / Password Change

To all of our customers and partners;

Please note that a new Annexxus Firmware v. **AP_01-00-60-35_i02** has been officially released for Annexxus 49D and 52 D/V/R IP camera series. The new firmware version is available for download on our website: www.i3international.com > Support > Downloads > Firmware > Annexxus 49D, 52D/V/R Firmware v.01-00-60-35_i02

The new firmware comes with the following improvements:

1.   New default user login and password (i3admin/i3admin)

FW version:	Default User Name	Default Password
v. AP_01-00-60-33_i02	admin	1234
v. AP_01-00-60-35_i02	i3admin	i3admin

Related Software:
- **To search:**
  Use Annexxus Finder v2.1.0 or higher for Annexxus 52D/V/R
  Use Annexxus Finder v3.0.0 or higher for Annexxus 49D
- **To record:**
  Use SRX-Pro v2.1.0 or higher for Annexxuss 52D
  Use SRX-Pro v3.0.0 or higher for Annexxus 49D, Annexxuss 52V/R

All Annexxus-series cameras are sold with the most recent version of the firmware already pre-installed.
To upgrade your previously-purchased Ax49/Ax52 camera with the new firmware, please start by downloading the firmware package from our website or FTP.

For instructions on how to install new Firmware, please see the Ax49 User Manual and Ax 52-series User Manual, respectively.

Note, that after the firmware upgrade, the new default login information will be updated, while the old login information will be saved to allow your Ax49/52 camera to continue recording normally in the SRX-Pro Server.

If desired, the old administrative account can be manually removed after the firmware upgrade. For the sake of simplicity and expediency, we recommend taking no action after upgrading your Annexxus 49/52 camera to the new firmware (v. AP_01-00-60-35_i02). You camera will continue recording normally.

Please consult with your Regional Sale Managers for more information.
Thank you very much for your attention and cooperation.
