Release Announcement:

Annexus 65RM, 3MP Outdoor Infrared Dome w/ Motorized Lens.

To all of our customers and partners;

i3 International is pleased to announce the release of the 3MP Outdoor IP Dome camera: Ax65RM.

i3's Annexus Ax65RM megapixel IP camera features 3MP video resolution and a built-in 3~10.5 mm remotely-adjustable varifocal lens, which allows the camera users to zoom in and out for the perfect view.

This new dome camera is very versatile and offers many practical functions ideal for both indoor and outdoor application, such as Smart IR. Smart IR technology achieves superior images in low-light conditions by automatic LED brightness adjustment depending on the object's distance from the camera. This moisture-, dust- and vandal-resistant model is IP67- and IK10-compliant and is designed to withstand outdoor conditions, while also being suitable for the indoor installations.

The built-in patented defog system detects humidity, dehumidifies, and delivers a crystal-clear image. Corridor view is available for users that would like to view a hallway or a single store aisle.

For the installations requiring edge recording redundancy, Ax65RM camera supports microSD card (sold separately) for easy event-based video and snapshot storage directly to the camera.

Finally, Annexus 65RM dome camera is designed with the installation simplicity and versatility in mind. This camera model can be surface-, pendant- or recess-mounted without the need for additional mounting brackets. These series can also be wall-, pole- and corner-mounted with the purchase of i3's compatible goose-neck bracket and the corner-mount assembly (where applicable). The zoom and focus settings can then be fine-tuned after the installation thanks to the remotely-adjustable varifocal lens.

The versatility of Ax65RM IP dome camera makes it suitable for a range of video surveillance applications, including government and industrial buildings, retail environments, airports, railway stations and schools. This model is suited for use with the i3's NVR and HVR - Video Management Systems.

Ax65RM camera series is backed by i3 International's superior 3-year limited camera warranty as well as i3's unparalleled 2-for-1 Camera Replacement program. Please read here to learn more about Two-for-One camera replacement program:
