Re: SRX-Pro Server/Remote v3.3.3.69 Release Notice

To all of our customers and partners;

This bulletin is the official notice of the SRX-Pro Server and SRX-Pro Remote v.3.3.3.69 release.

The software installation packages can be downloaded from the i3 website: <http://i3international.com/index.php/software-downloads> and has been installed on all units built in the factory from May 11th, 2016 onward.

Details:

The new SRX-Pro Server v3.3.3.69 and SRX-Pro Remote v3.3.3.69 are in compliance with the new changes to our Video Analytics Licensing, therefore this software has had the Video Analytics functions removed from SRX-Pro Software.

Starting from April 1, 2016, there are two separate software packages for SRX-Pro. One package that includes Video Analytics and another without. If Video Analytics is intended for the installation please download SRX-Pro 3.3.3.69 Zip folder from the i3 web site (<http://i3international.com/index.php/software-downloads>) and install both the SRX-Pro Server 3.3.3.69 and the VA 3.3.3.69 files that are included within.

If you have any questions regarding the new software or the new policies regarding Video Analytics please consult with your Regional Sales Manager for more information.
Thank you very much for your attention and cooperation.

Please contact technical support if you have any questions or issues.
