

INTELLIGENT VIDEO DRIVING PROFIT

July 5, 2016

Re-Release Announcement:

Annexus Ax62V, 3MP 3~9mmVF Varifocal Outdoor Dome Camera.

To all of our customers and partners;

i3 International is pleased to announce the re-release of the 3MP Outdoor IP Dome camera: Ax62V.

i3's Annexus Ax62V megapixel IP camera features 3MP video resolution and a built-in 3~9 mm varifocal lens, which allows the camera users to manually zoom in and out for the perfect view.

This dome camera is very versatile and offers many practical functions ideal for outdoor application. We have brought this camera back due to high demand for its BNC output (spot output) connection. This moisture-, dust- and vandal-resistant model is IP67- and IK10-compliant and is designed to withstand outdoor conditions, while also being suitable for the indoor installations.

In addition, the camera includes other key features such as H.264 compression standard. H.264 greatly reduces the size of video compared to MJPEG and MPEG4 without compromising image quality. Storage and bandwidth needs are reduced. The Ax62V was designed to save installation time as mounting adapters for various environments are no longer needed. Rich with practical enhancements, the Ax62V is ideal for a wide variety of security applications including retail, schools and commercial property.

Ax62V camera is backed by i3 International's superior 3-year limited camera warranty as well as i3's unparalleled 2-for-1 Camera Replacement program. Please read here to learn more about Two-for-One camera replacement program:
