Re: CheckPoint PTZ Integration released

To technical support;

Please be aware that a special SRX-Pro 1.512 PTZ Beta software version has been released by R&D in order to integrate with Checkpoint PTZ camera.

Checkpoint PTZ camera protocol has been added to the list and can be selected in the Hardware Setup tab. This protocol is going to be included in our official SRX-Pro 1.52 software release in February 2009.

The PTZ Beta software version has been released specifically for CheckPoint and can be downloaded here: <ftp://upload:unsecure@files.123ip.com/CheckPoint>

Thank you very much for your attention and cooperation.
Best regards,

A handwritten signature in black ink that reads "Olga Alexeenko". The signature is written in a cursive, flowing style.
