**Re: Video Pilot Client v7.1.2.131 Release Notice**

To all of our customers and partners;

This bulletin is the official notice of the Video Pilot Client **v7.1.2.131** release.

The new software installation package is now available for download from the i3 website:  
<http://i3international.com/support/download>.

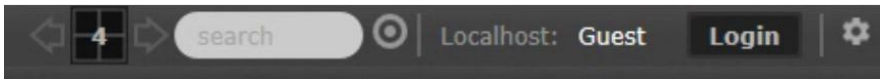

**New Features:**

- Ax71 “Edge” Ai camera series integration (pending Ax71 release) (#36490)
  - Receive and display alarm from Ax71A series
  - Support Index search – Video Analytics search for Ax71A Ai events
- H59 LPR integration (pending H59 release) (#36479)
  - Display license detection result from H59
  - Display mismatch and unknown LPR results

**Improvements:**

- Remove “Localhost:” from the top bar menu when connecting to the local server. (#36146)

Before:

After:

- Always show “**Login**” button next to the “Guest” user, regardless of the screen resolution. If the screen resolution is too small to show the entire menu bar, hide “Search” field instead. (#36145)

**Fixes:**

- Restore backwards compatibility for SRX-Pro v.3.2.1 and 3.3.X.X (fix related to v.7.1.2.121) (#36148)
- Crashing during 16x search playback with buffering enabled (#36827)
- Fix “video.exe -s 100-001” command to play all available SRX-Pro channels simultaneously. (#37145)

**Limitations:**

- English-language support only

### VPC v7 Compatibility Table.

**Note:** For more i3 application compatibility, refer to i3’s Software Compatibility Chart technical bulletin on [Media Library](#) web page. Search **Technical Bulletins** > **Software** subfolder for the latest revision.

i3 Application / Device	Compatibility
VPC Configuration	VPC v3.0 and higher
SRX-Pro	SRX-Pro v.3.0 and higher
PACDM	PACDM v7.22.2.16 and higher PAC Converter v3.1.2.0 and higher
i3Ai	i3Ai v7.1.2.15 and higher

#### About Version:

Version 7.1.2.131  
Build Date: May 7, 2021

#### Release History:

**SRX-Pro v.7.1.2.121 – Interim release. December 30, 2020**

#### Improvements:

- Performance improvement. Disable “Buffering and search” option for existing users (#34119 / #32574).
- Screen lock function improvement. (#34116 / #27607). Change “Bottom bar locked/unlocked” to “Screen locked/unlocked. When the screen is locked, VPC GUI (top and bottom bars) are locked in place and shown even after a period of inactivity. This includes the Time/Date information. To lock/unlock the VPC screen, click on the push-pin icon in the bottom right-hand corner.

- Maintain the search time indicator in the same position (same search time) when switching between channels or screen divisions. (#32923)
- Support Face Recognition feature (pending release) (#29850)

#### Fixes:

- No video shown during offline search of the previously-archived \*.i3d file (#34067)
- Search time indicator not updated to “current time” when switching from Live mode to Search mode (#33966)

With any pricing questions, kindly contact our Customer Care department at 1.866.840.0004.
