

Re: SRX-Pro Server v7.3.2.47 Release Notice

August 11, 2023

To all of our customers and partners;

This bulletin is the official notice of the SRX-Pro Server **v7.3.2.47 (Build 19-Jul-2023)** release. The new software installation package is now available for download from the i3 website:
<https://i3international.com/support/download>.

Effective **Monday, August 14, 2023** this release package will be used as the default Production software version for all standard NVRs. To continue receiving your NVRs with an earlier version of SRX-Pro/VPC v7, please speak to your RSM to arrange for a “Special Routing” to be created for your NVRs.

New Features:

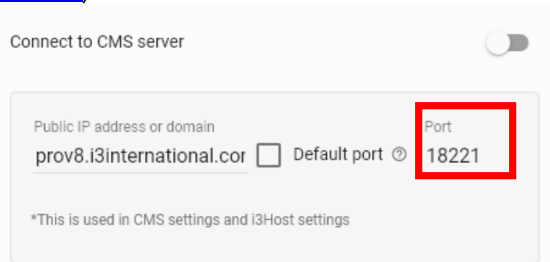

- Support immediate and scheduled *.i3c (incident) backup via CMS. ([#48824](#))
- Support video streaming selection for each added channel. Switch between TCP/IP and UDP, as required ([#60548](#), [#63611](#)). Streaming selection is accessible in Discovery & Add, Camera List and Camera General tab sections of the setup.

- Support smart VPC upgrade prompts.
The NVR stores the latest version of VPC in a specific folder on the C drive when a new SRX-Pro package is installed. The system displays a message to inform the user of the availability of a newer version of VPC when a remote VPC with an earlier version connects to the SRX-Pro Server. The user can choose to download the updated version of VPC directly from the NVR that they are connecting to. ([#58667](#))
- Support new camera series: M75, M85 ([#62380](#)) and the new encoder: LD16 ([#58661](#))

Improvements

- Hide Auto-Update option in SRX-Pro Setup. ([#61010](#))
- New default camera name standard. ([#63234](#))
Example of the old default camera name: “ANNEXUS 98 AUDIO (10.1.4.78)”
Example of the new default camera name: “M77-2”
- LPR setup tab active for H59 camera model only ([#63569](#))
- Support Public port setting in CMS Settings/i3Host settings. Default port option is selected by default. ([#58826](#))

- “Ai” recording type re-named to “Ai Alarm” in Recording schedule tab, for clarity. ([#60099](#))

New Features in testing stage

- Face Similarity advanced search. Improved GUI. ([#61144](#)) Available with AiSearch function only, subject to licensing fee. Please contact your sales rep to learn more.

Fixes

- Various fixes and performance improvements ([#63666](#), [#62687](#), [#62655](#), [#62531](#), , NCR#1933, NCR#1945)

VPC v7.3 Compatibility Table.

Note: For i3 application compatibility, refer to i3’s [Software Compatibility Chart](#)

i3 Application / Device	Compatibility
SRX-Pro	SRX-Pro v.5.0 and higher
VPC	VPC v7.3.2.0 and higher
PACDM	PACDM v7.26.2.128 or higher PAC Converter v3.6.2.63 or higher
i3Ai	i3Ai v7.3.2.0 or higher
CMS	CMS v6.5.1.0 (BETA) and higher

INTELLIGENT VIDEO DRIVING PROFIT
