

Re: Video Pilot Client v7.3.2.47 Release Notice

August 11, 2023

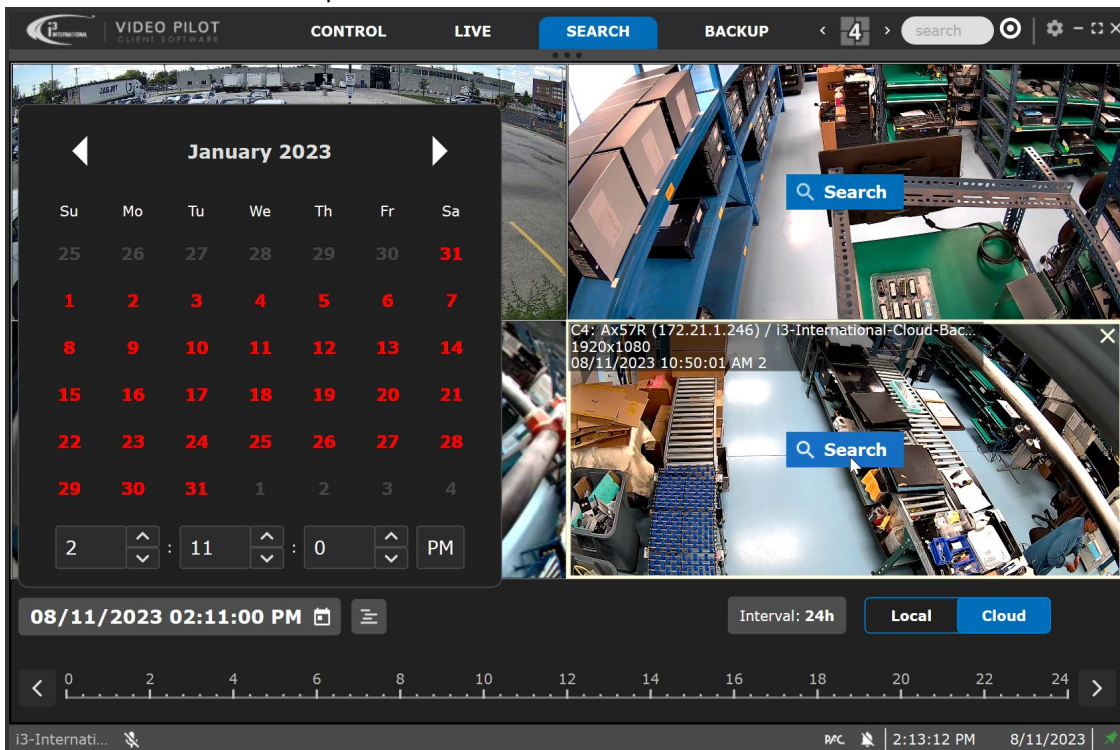

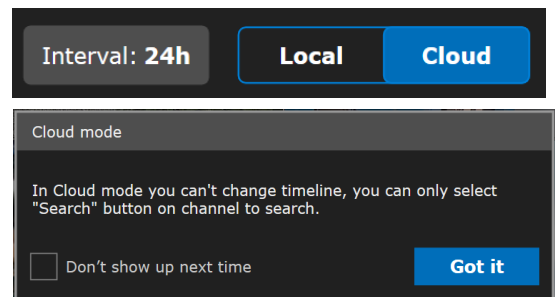

To all of our customers and partners;

This bulletin is the official notice of the Video Pilot Client v7.3.2.47 (Build 19-Jul-2023) release. The new software installation package is now available for download from the i3 website: https://i3international.com/support/download.

Effective Monday, August 14, 2023 this release package will be used as the default Production software version for all standard NVRs. To continue receiving your NVRs with an earlier version of SRX-Pro/VPC v7, please speak to your RSM to arrange for a "Special Routing" to be created for your NVRs.

New Features:

- **Cloud data can be searched in the regular Search mode.**
Cloud Files tab removed. (#55193)
Switch between local and cloud video data in VPC's Search mode.
Note: Searching cloud data counts towards the monthly usage allowance, overuse may result in additional fees.
Cloud data can be searched on a single channel at-a-time, local data can be searched for up to 64 channels at-a-time.

Kennesaw, GA 30152

- Control tab GUI improvement.**

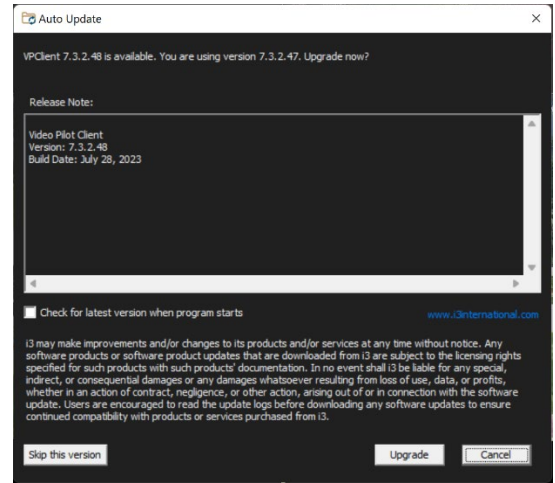

The Server list is now organized by groupings: Locally-added servers, CMS servers and i3Host servers. CMS Servers are further grouped by domain for easy filtering and simplified search. (#55207)

- Search tab GUI improvement.** Click on the multi-channel timeline icon to enable/disable . Multi-channel timeline view added for quick overview of video recording data for up to 4 channels at-a-time. Use the mouse wheel or cursor to scroll down to see the next group of four. (#60011)

- Smart VPC upgrade prompts. The NVR stores the latest version of VPC in a specific folder on the C drive when a new SRX-Pro package is installed. The system displays a message to inform the user of the availability of a newer version of VPC when a remote VPC with an earlier version connects to the SRX-Pro Server. The user can choose to download the updated version of VPC directly from the NVR that they are connecting to. ([#58667](#))

Improvements

- Bandwidth indicator added to the status bar ([#62719](#))

- Collapsible Sensor/Control panels in the status bar to prevent unintended control activation. Click on "Sensor" and "Control" to show/hide Sensor and Control icons. ([#56321](#))

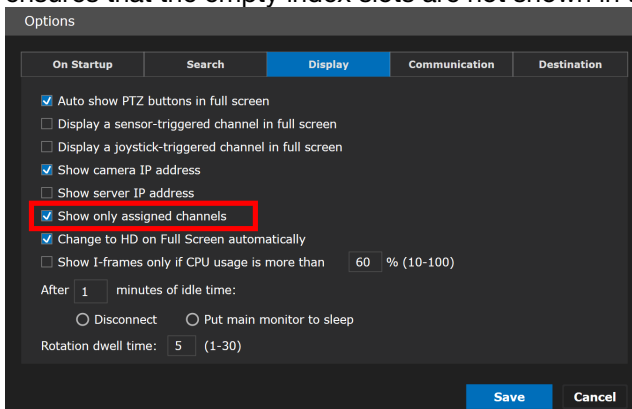

Expanded

Collapsed

- iSearch feature support re-instated. ([#63118](#))
- Improve all i3Host-related functions, including NVR list download and NVR connection editing. ([#63673](#))
 - Remove the i3Host automatic update interval value "Never". i3Host interval must be set between 5 and 30 minutes in 5-minute increments. This will ensure that user access changes are propagated promptly and regularly.
 - OTP expired session functionality improvement.
- Add **Show only assigned channels** option (enabled by default) in the Display setup tab. This function ensures that the empty index slots are not shown in the Cameras tab. ([#63119](#))

- Object Search (Advanced Search) performance improvement ([#63800](#))
- AiSearch: Support multi-day search ([#61149](#))

New Features in testing stage

- Face Similarity advanced search. Improved GUI. ([#61144](#)) Available with AiSearch function only, subject to licensing fee. Please contact your sales rep to learn more.

Fixes

- Various fixes and performance improvements ([#62522](#), [#62718](#), [#62746](#), [#63923](#), NCR#1947, NCR#1952)

VPC v7.3 Compatibility Table.

Note: For i3 application compatibility, refer to i3's [Software Compatibility Chart](#)

i3 Application / Device	Compatibility
VPC Configuration	VPC v3.0 and higher
SRX-Pro	SRX-Pro v.5.0 and higher
PACDM	PACDM v7.26.2.128 or higher PAC Converter v3.6.2.63 or higher
i3Ai	i3Ai v7.3.2.2 or higher

About Version:

Version 7.3.2.47

Build Date: July 19, 2023
