

Re: CMS Web, CMS Mobile and VPC – Feature comparison

i3 International offers a range of applications that enable remote video viewing. The customer’s needs and network requirements/restrictions will determine the most suitable application. The table below compares the key features and differences of CMS Thin Client (web-based), CMS Mobile (smartphone app), and Video Pilot Client (VPC) Thick Client (desktop software).

For additional information on port requirements, please refer to the related [bulletin](#).

	CMS	CMS Mobile	VPC
			
	Thin Client	Mobile App	Thick Client
