

Re: Video Pilot Client v7.3.2.88 Release Notice

January 22, 2024

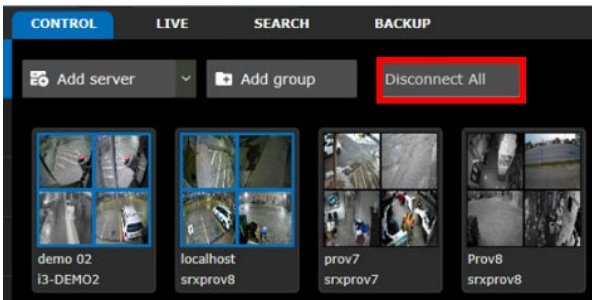

To all of our customers and partners;

This bulletin is the official notice of the **Video Pilot Client v7.3.2.88 (Build 19-Jan-2024)** release. The new software installation package is now available for download from the i3 website: <https://i3international.com/support/download>.

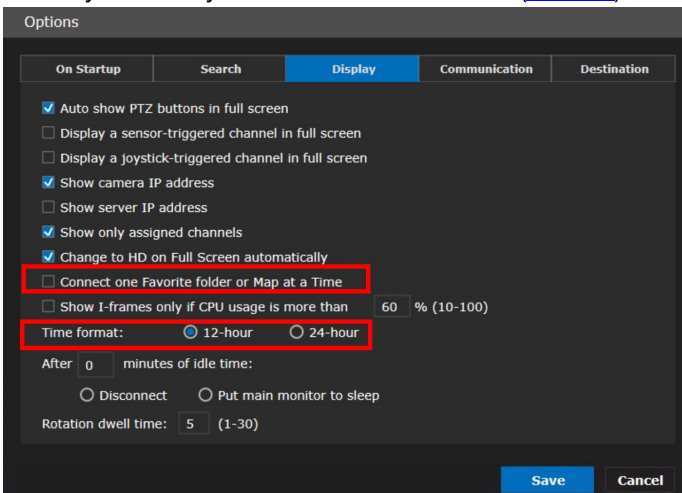

Effective **Monday, January 22, 2024** this release package will be used as the default Production software version for all standard NVRs. To continue receiving your NVRs with an earlier version of SRX-Pro/VPC v7, please speak to your RSM to arrange for a “Special Routing” to be created for your NVRs.

New Features:

- Add **Disconnect All** button (Displayed only when there is an active remote connection). ([#64375](#))

- Support connecting to one Favorites camera group at-a-time (OFF by default). When ON, this function will automatically disconnect the current connection before connecting to a new group of cameras (Favorites or Map). ([#67349](#))
- Support 12-hour (AM/PM) and 24-hour (military time) calendar options. Note that the playback timeline will stay in military time to avoid confusion. ([#21659](#))

Improvements:

- GUI improvement: Modify group Collapse button to differentiate from Expanded. (#64376)

- Calendar improvement: support circular time setting in the calendar (hours/minutes/settings). While adjusting time in one direction, allow restarting countdown from the beginning once the end is reached (e.g. 59 to 0 seconds) (#64362)
- Support overwrite local server information when downloading from CMS server (#63625)

New Features in testing stage:

Ai Face Search function improvements:

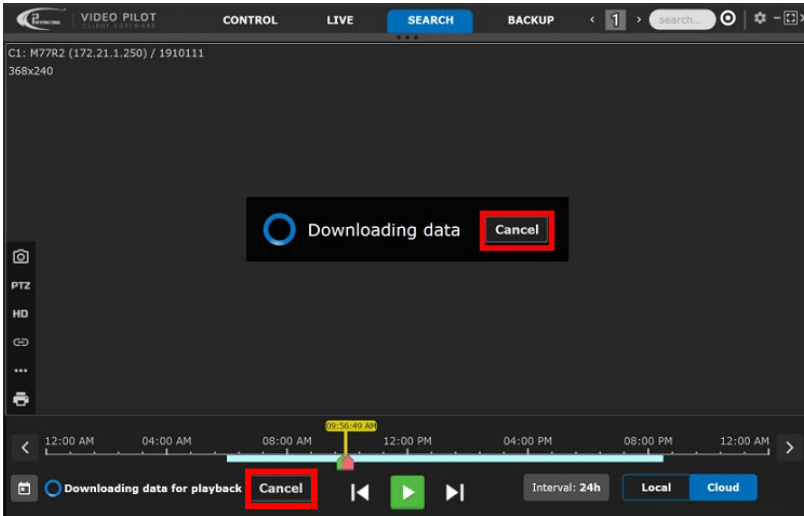

- New GUI for Face optimization (#65196):
- Improve search performance for long search periods (#65216)
- Support Face search on multiple channels (#65464)
- Create a dedicated Advance Search item: Ai Face Search; add Face search option to the in the Ai Object Detection (#65783)

i3Host function improvements:

- Fetch Relay and Site Map information from CMS server joined to i3Host. (#65042)
- Update connection type from i3Host (#68411)

Cloud Storage improvement:

- Allow cancelling Cloud download already in progress when it's taking too long. ([#68389](#))

Fixes

- Add camera page: support horizontal scroll on low resolution screens ([#65864](#))
- Fix incomplete VPC disconnection in case of data format issues, which prevents successful automatic reconnection. ([#64349](#))
- Remove “Linked channel” icon from VPC Player as this function is supported only in the full version of VPC ([#66652](#))

VPC v7.3 Compatibility Table.

Note: For i3 application compatibility, refer to i3's [Software Compatibility Chart](#)

i3 Application / Device	Compatibility
VPC	VPC v7.3.2.0 and higher
PACDM	PACDM v7.26.2.137 or higher PAC Converter v3.7.2.80 or higher
i3Ai	i3Ai v7.3.2.90 or higher
CMS	CMS v6.5.2.0 and higher
