Re: Alert Center v6.6.2.0 Release Notice

To all of our customers and partners;

This bulletin is the official notice of the **Alert Center v6.6.2.0** release.

Alert Center is i3 International’s real-time alert monitoring software. It allows you to receive actionable notifications concerning NVR health status, sensor, and Ai alarms, including i3Ai Sentry alarms from all locations under live surveillance.

New features:

- Support One-Time-Password (OTP) login via i3Host ([#55773](#) | v6.3.2.0)

The screenshots illustrate the OTP login process. The first image shows the 'Alert Center Login' screen with 'OTP Verification' options: 'By email' (selected) and 'By phone number'. A 'Send OTP' button is visible. The second image shows the same screen after receiving an OTP, with the email address 'osk****@i3international.com' and a text input field for the OTP. A 'Resend OTP' button and a 'Verify' button are also present. The third image is an email from i3Host (noreply) to Olga Skelly, containing the 'OTP Verification Code' 045514, valid for 3 minutes. The email also includes a 'Back To Login' link and the i3 International logo.

- Support i3Ai Sentry alerts. Subject to i3Ai Sentry solution implementation and i3Ai Sentry subscription fees. ([#63146](#) | v6.5.2.0)
