Re: Windows XP Embedded Shortcuts

Effective September 2009, all i3 DVMS/NVR units run on Windows XP Embedded v. 3.0 edition. A number of Windows shortcuts are available.

Note: For XPe v.3.0, the User Accounts and Power Options icons in Control Panel are disabled.

XP Embedded, v. 3.0 edition shortcuts

**Note: SRX-Pro/iP-Pro Server does not have to be closed for Windows shortcuts to work.*

Ctrl + Alt + C – Launch Calculator
Ctrl + Alt + E – Eject USB Device
Ctrl + Alt + I – Launch Internet Explorer
Ctrl + Alt + K – Launch On-screen Keyboard
Ctrl + Alt + N – Launch Nero Express
Ctrl + Alt + P – Open Command Prompt window
Ctrl + Alt + R – Reboot/Restart DVR
Ctrl + Alt + V – Open Volume Control
Ctrl + Alt + W – Launch Windows Media Player
Windows Key + D – Minimize all active windows
Windows Key + E – Open My Computer window

The following Windows shortcuts are disabled*:

Winkey + PAUSE – open System Properties window
Winkey + L – Lock Workstation
Winkey + F – Open Search window
Winkey + R – Open Run window

** The Windows Key itself remains active.*

With any questions, please contact our technical support at 1.877.877.7241 or support@i3dvr.com

Thank you very much for your attention and cooperation.
