**RE: PATCH FOR SRXPRO SERVER v1.520VA\_CMS**

To all of our customers and partners:

Technical issues have arisen when using SRXPRO Server v1.520VA\_CMS software. The following issues have been resolved with the new patch.

1. System malfunction when network card could not obtain IP from DHCP server
2. Day time saving (DST) – including restarting at midnight and search graphic display incorrectly
3. i3Server prolong rebooting time
4. Motion recording is changed to continuous

**MAKE SURE SERVER v1.520 VA\_CMS SOFTWARE IS CLOSED by pressing the following keyboard keys CTRL+ALT+SHIFT+F4**

How to apply the patch:

1. Go to our FTP site and download 2 files.
  - a. Open “My Computer” windowOn the address bar type in: <ftp://files.123ip.com/>  
When prompted:
  - i. username: **cms**
  - ii. password: **endnjask**
  - iii. Click on Log On buttonOtherwise
  - iv. Click on File menu and select Login as...
  - v. username: **cms**
  - vi. password: **endnjask**
  - vii. Click on Log On button
2. Open the folder name **CMS 2.04**
3. Open the folder name **SRX Pro 1.520VA\_CMS patch(20Jan10)**
4. Download the **Patch\_v1.52VACMS\_Jan20\_2010.zip**
5. Right Click the Zip file and extract the Contents, completing the windows wizard
6. Open up the Folder Patch\_v1.52VACMS\_Jan20\_2010
7. Double click either the Remote or Server Patch (which ever you are patching)
8. The remote or Server will be patched
9. Be advised to only run the Server Patch on the i3Server, and the Remote patch on the PC with the remote client installed.

Please contact technical support at [support@i3dvr.com](mailto:support@i3dvr.com) or by phone: 1.877.877.7241 if you have any other questions or issues regarding the above.

Thank you very much for your attention and cooperation.

Best regards,
