Re: Hot fix for Internet Explorer Remote Viewing – SRX-Pro Web Security

To all of our customers and partners;

A new hot fix patch has been released for the SRX-Pro Web Security viewing on Internet Explorer. The patch, “**patch_srxpro_server_v2.3.0_web_20120730.zip**” resolves the restricted remote camera viewing by unauthorized viewers issue.

i³ International would like to apologize for the inconvenience that might have caused. The patch applies to SRX-Pro software version 2.3. The new hot fix can be easily downloaded at:

<http://www.i3international.com/en/downloads.html>.

Please contact technical support at support@i3international.com or by phone: 1.877.877.7241 if you have any questions or issues.
