Re: Video Pilot Client (VPC) v.3.3.3 Release Notice

To all of our customers and partners;

i3 International is pleased to announce the external release of the Video Pilot Client v.3.3.3.

To help with the update, built-in auto upgrade function can be used in the VPC application. Upon the VPC startup, the automatic check for new version releases will be performed and the user will be prompted to authorize the upgrade (Internet connection required).

The latest Video Pilot Client is also available for download from the i3 website:

<http://i3international.com/index.php/software-downloads>

New Features and Functions:

- 2-way audio support for Annexus68 and Annexus78 IP cameras. Communicate with the camera installation from the VPC location. Received and sent audio can be recorded together with the video. Note, feature not supported by SRX-Pro Remote. See [150501-HW-01 \(Anexxus 68R/78R Release\).pdf](#) bulletin for more details.
- Windows 7 "Medium - 125%" or "Larger - 150%" DPI setting supported
Note: Higher DPI display setting may require for the monitor resolution setting increase.
- HR16 support. HR16 is currently not available for purchase.

Improvements:

- Live video buffering
- Media 9 video codec can be used for AVI backups to facilitate smaller file sizes
- Audio recording codec changed from UDP to TCP to ensure more stable continuous audio recording

Supported SRX-Pro Server versions: 3.0, 3.1, 3.2, 3.2.1, 3.3.x

Please consult with your Regional Sales Manager for more information.
Thank you very much for your attention and cooperation.
