Re: PACDM v.7.19 release

To all of our customers and partners;

i3 International is committed to ongoing enhancements of PACDM software (Point of Sales, ATM, and Card Access Data Management). i3 International has been developing and selling PACDM solutions since 2006.

The following is a summary of changes and enhancements implemented in the latest PACDM release **version 7.19.2.0, 32bit/64bit**:

Improvements:

- Start PAC Server when calling from SRX-Pro Console
- Use port 6111 to send commands to PAC Remote when the unit has no SRX-Pro Service
- Sign certificate for the *.msil file

Resolved issues:

- Remote: LPR license plate image preview not displaying
- System setup changes in case of PACDM and SRX-Pro Text Overlay mismatch causes PACP and ProcessException to end in Task Manager

Related software:

SRX-Pro version: SRX-Pro 3.3 to SRX-Pro 6.0

Released packages:

32-bit package includes:

- Server (Regular and XML)
- Remote (Regular and Enterprise)

64-bit package includes:

- Server (Regular and XML)

Please visit the [Downloads](#) section of our website to download the most recent version of PACDM software. For the full list of supported devices, please refer to our [PACDM Integration list](#).
