Re: SRX-Pro Service/Remote v6.0.2.79 Release Notice

To all of our customers and partners;

This bulletin is the official notice of the SRX-Pro Service, Console and Remote **v6.0.2.79** release.

The software installation package is now available for download from the i3 website: <http://i3international.com/software-downloads> and will be installed on all NVR units built in the factory from October 29, 2018 onward.

Reminder: SRX-Pro Server v.6.0 onwards is available in 64-bit version only. Because no 32-bit version package is available, legacy ADIO1616 I/O board (control card) will not be supported. Use WDT/WDT-22 I/O boards or UIO8 device instead.

v6.0.2.79 Improvements include:

- dDisplay Windows 10 IoT compatibility issue resolved.
- Improvement to LPR algorithm: scaled down image resolution can be customized by the user. Please contact our Tech Support team for more information.
- Missing monthspan.idx file can prevent SRX-Pro from reading recorded data issue resolved.
- Region Traffic ID mapping incorrect after upgrading v.5.X to v.6.X issue fixed.
- Service/Server restart issue related to dDisplay usage issue resolved.
- Newest ACT v.1.4.2.1 added to the SRX-Pro Server.

With any pricing questions, kindly contact our Customer Care department at 1.866.840.0004.

Please contact technical support if you have any questions or issues.
