4. Encrypted Video Transfer (EVT) under Incident Reporting module (#45710)
   When creating a new incident, the users can now attach an encrypted video clip, which can then be shared with the team and/or third parties (e.g. law enforcement) via a secure link. Requested encrypted video clips (by camera, date and time) are retrieved overnight. Once the EVT is ready for review, team members are alerted via email. Retrieved video clips are stored on the CMS portal for up to 3 months for review.
