

1. Audio I/O connectors. Ax75RM(v2) is compatible with i3 Mo-1 microphones. BNC video output connector is pre-installed in the GND/TV Out ports for spot monitor output.
2. AC 24V / DC 12V Port. Connect either DC 12V or AC 24V power supply.
3. RJ45 Ethernet Connector / PoE. Connect RJ45 network cable for Ethernet/Internet connectivity. PoE (Power over Ethernet) is supported.
- Caution:** Do not apply power until the camera is properly and securely mounted.
4. Orange LED. Flashing orange LED indicates data transmission between the camera and the Internet.
5. Green LED. Solid green LED indicates a current live connection.

**AX75/85**
